EOPYY is a National Organization of Greece, whose main scope is the purchase of health services for its insured, pensioners and their dependent members (~10.000.000). It's main objectives include:

- The establishment of rules for design, quality, development, evaluation, safety and efficiency of the health services market, managing and controlling funding.
- The establishment of criteria and contract terms for the purchase of health services with institutions of public and private sector as well as affiliated doctors.
- The negotiation with all affiliated providers of their contract terms with EOPYY

ATEITH MAIN SCOPE -1

- ATEITH places special emphasis on high quality education, science, technology and the arts, in the relevant professional fields.
- In this context, it combines the development of the appropriate theoretical background with high-level laboratory and practical training.

ATEITH MAIN SCOPE -2

In order to fulfill its mission, ATEITH is organized and operates with rules and practices that ensure the observance and defense of the principles in particular:

- (a) freedom of research and teaching,
- (b) research and scientific ethics,
- (c) the quality of education and services,
- (d) efficiency and effectiveness in the management of staff, resources and infrastructure,

ATEITH MAIN SCOPE -3

- (e) the transparency of all their activities,
- (f) impartiality in the conduct of their work and decision-making,
- (g) meritocracy in the selection and development of their staff; and
- (h) equal treatment between the sexes and respect for all differences.

ATEITH MAIN SCOPE -4

The Alexandrio Technological Educational Institute (TEI) of Thessaloniki has as its mission:

1. to produce and transmit knowledge through research and teaching, to prepare students for its application in the professional field and to cultivate the arts and culture
2. provide higher education and contribute to lifelong learning through modern teaching methods, including distance learning, based on scientific and technological research at the highest level of quality in accordance with internationally recognized criteria

ATEITH MAIN SCOPE -5

3. develop students' criticality and skills, ensure professional integration of graduates and create the necessary conditions for the emergence of new researchers
4. respond to labor market and occupational needs as well as to the country's development needs and promote knowledge diffusion, exploitation of research results and innovation, respecting the principles of scientific ethics, sustainable development and social cohesion

ATEITH MAIN SCOPE -6

5. Promote cooperation with other educational institutions and research bodies in the country and abroad, the effective mobility of educational staff, students and graduates, contributing to the building of the European Higher Education and Research Area and
6. contribute to the formation of responsible citizens capable of meeting the requirements of all fields of human activities with scientific, professional and cultural competence and accountability and with respect for the values of justice, freedom, democracy and social solidarity.

Role of ATEITH in the “Health Info” Project -1

- The Alexander Technological Educational Institute of Thessaloniki is a higher educational institution operating in a wide range of disciplines.
- In particular, the School of Health Medical Care focuses on Nursing, Midwifery, Nursery, Technology of Medical Laboratories, Physiotherapy, Cosmetics and Wellness

Role of ATEITH in the “Health Info” Project -2

- The ATEITH will contribute to the implementation of the project from a scientific point of view
- In particular, in the monitoring and processing of data collected by the system, and mainly in the implementation of the preventive medical program

List of Work Packages

The ATEITH participates in the following Work Packages of the “Health Info” project:

- Work Package 1
- Work Package 2
- Work Package 3
- Work Package 4 and
- Work Package 6

Work Package 1

- **P1.2.2:** Participation in three project’s Task Force Meetings at Thessaloniki , Gevgelja and Edessa.
- **P1.2.3:** *Management*
- **P1.2.4:** *Evaluations and creation of “Guidelines for the operation of the partnership – Code of Ethics”.*
- The purpose of this Code is to instill confidence in the project management procedure.

Work Package 1 (cont.)

- The “**Guidelines for the operation of the partnership – Code of Ethics**” includes:
 - 1) Vision and Purpose of partnership and project
 - 2) Responsibility (ownership of decisions)
 - 3) Respect to partnership and environment
 - 4) Fairness (transparency, equal access to information, etc.)
 - 5) Honesty (act in a truthful manner both in communications and conduct)
 - 6) Medical Confidentiality
 - 7) Gender Equality and Human Rights

Work Package 2

- The opening conference will take place in Thessaloniki under the auspices of ATEITH (**preferably within November 2018**)
- An external company will undertake the organization of PB2’s conference.
- Let’s set the date now!

Work Package 2 (cont.)

- In order to ensure the dissemination of the project's activities, three Press Visits will be held:
 - 1) In one Mobile Unit's trip,
 - 2) In one educational program in preventive medicine and
 - 3) In one educational program in First Aid
- These three group visits by journalists to project sites should ensure additional visibility opportunities.

Work Package 3

"Data Collection & Evaluation"

- This deliverable will operate as a Research Study
- This activity contains the following:
 - 1) Data analysis
 - 2) Research Study

Work Package 3 (cont.)

1. Data analysis

- Bibliography search for other studies relevant to the project and preparation of review of the literature.
- Preparation of advanced word processing documents with draft chapters of research summaries and content for the final publication.
- Overview of project reports and articles and existing research into a comprehensive document.
- Collaboration of the project scientific supervisor of the ATEI of Thessaloniki with other scientists in data analysis for project use and publication content.

Work Package 3 (cont.)

2. Research Study

- Coordinate and schedule data collection
- Travel in the eligible regions to collect data
- Observe practice
- Interview key stakeholders and conduct focus groups
- Design of methodology and requirements
- Design of different types of questionnaire-forms (medical history form, evaluation form for trainees, evaluation form for doctors)
- Data collection from questionnaires, forms and medical reports from filled out in the medical unit
- Evaluation of the results – conclusions.

Work Package 4

- Includes an integrated set of educational activities aiming to improve the quality of life and health of children and the elderly in the regions of implementation through the development of **three axes** of intervention.
 - WP4.1 “Educational program for general population”
 - WP4.2 “Educational program for local doctors”
 - WP4.3 “Practical Training on mannequins”

Work Package 4 – 1st axis

Educational program for General population

Work Package 4 – 1st axis (cont.)

Educational program for General population

- The First Axis refers to educational programs in the field of preventive medicine for the general population, parents and vulnerable groups who live in the cross-border regions of implementation.
- Aims: To improve the awareness of general public in gynecological cancer and educate them about common medical emergencies affecting children and the elderly
- The first axis will focus in two areas

Work Package 4 – 1st axis (cont.)

Focus area 1

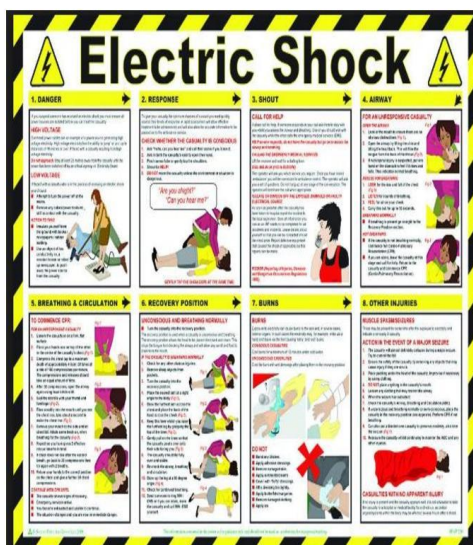

- 1) Education about health issues for women including breast, ovarian and uterine cancer and screening principles and benefits

Work Package 4 – 1st axis (cont.)

Focus area 2

2) Common medical emergencies affecting children and the elderly

Work Package 4 – 1st axis (cont.)

- **Eight** Educational programs, in the form of **4-hour** seminars
- **Locations:**
 - Three seminars in the Regional Unit of Thessaloniki
 - Two seminars in the Regional Unit of Pella
 - One seminar in the Regional Unit of Florina
 - One seminar in the Regional Unit of Kilikis and
 - One seminar in the Regional Unit of Serres

Work Package 4 – 2nd axis

Educational program for local doctors

Work Package 4 – 2nd axis (cont.)

Educational program for local doctors

- The Second Axis refers to educational programs which aim to train healthcare professionals who work in the regions of implementation
- These educational programs will be more advanced compared with the educational programs of the first axis
- There will be more specialized subjects in the fields of breast cancer and gynecological cancer prevention, diagnosis and treatment

Work Package 4 – 2nd axis (cont.)

Educational program for local doctors

- **Aims:** To improve the skills and Knowledge of local doctors in the fields of breast cancer and gynecological cancer prevention, diagnosis and treatment.
- **In addition:** In the context of these seminars, the Lead Beneficiary will inform healthcare professionals who work in the regions of implementation regarding the operation of an e-Platform.

Work Package 4 – 2nd axis (cont.)

- **Eight** Educational programs, in the form of **6-hour** seminars
- **Locations:**
 - Three seminars in the Regional Unit of Thessaloniki
 - Two seminars in the Regional Unit of Pella
 - One seminar in the Regional Unit of Florina
 - One seminar in the Regional Unit of Kilis and
 - One seminar in the Regional Unit of Serres

Work Package 4 – 3rd axis

Practical Training on mannequins

Work Package 4 – 3rd axis (cont.)

Practical Training on mannequins

- The third Axis refers to “hands on” seminar for small groups of people (10 people/per seminar)
- **Aim:** To improve the skills of ordinary people in emergency and rescue services

Work Package 4 – 3rd axis (cont.)

Practical Training on mannequins

a) CPR and choking first aid

(infant/child CPR) courses

b) CPR and choking first aid

(elderly CPR) courses

Work Package 4 – 3rd axis (cont.)

➤ **Ten** Educational programs, in the form of **6-hour** seminars for small groups (10 people/per seminar)

➤ **Locations:**

- Two seminars in the Regional Unit of Thessaloniki
- Two seminars in the Regional Unit of Pella
- Two seminars in the Regional Unit of Florina
- Two seminars in the Regional Unit of Kilis and
- Two seminars in the Regional Unit of Serres

Work Package 6

Work Package 6 (cont.)

- **Aims:** Actions aiming to improve health services for children and the elderly in the intervention area through the development of comprehensive programs of preventive medicine in the Cross Border region Greece - FYROM IPA.
- Within the framework of the project, an additional benefit will be that all partners who will implement the action of preventive medicine in Greece and FYROM, will gain through observation by the transfer of knowledge regarding the application of a **medical mobile unit** in primary care and related processes and requirements.

Work Package 6 (cont.)

The **project objectives** are as follows:

- 1) To educate women for the necessity of screening services and the need of regular check –up.
- 2) To provide screening services and enrollment of women who are traditionally difficult to reach.
- 3) To achieve early detection of female cancer and therefore early treatment and better prognosis.
- 4) The most important benefit from the operation of this mobile unit is the reduction in mortality and morbidity rates.

Work Package 6 (cont.)

- The work-team for the implementation of this Activity will consist of:
- A Gynecologist specialized in breast cancer (Prof. Zafrakas)
- A Gynecologist specialized in gynecological cancer
- An MD Radiologist
- A General Practitioner
- An Otolaryngologist (Ear, Nose and Throat - ENT- specialist)
- These doctors and the auxiliary staff (driver and secretary – contact person) will provide health services to the Project's target groups ten times in 10 different areas (eligible areas) (Table 1).
- Each trip will last two days. Therefore, the total operation of the Mobile Unit will be 20 days.

Work Package 6 (cont.)

- The Project manager on behalf of ATEITH is a Medical Doctor (Gynecologist) with specialization in the field of Breast Cancer
- He will be responsible for the overall implementation of this activity
- Apart from his organizational responsibilities, Prof. Zafrakas will provide medical services to the Project’s target group (elder women)
- Specifically, he will examine and inform women regarding breast cancer

Table 1

Mobile Unit’s Trips	Days	Participating Doctors	Area
1	1	Radiologist, 2 * Gynecologists, General Doctor	Regional Unit of Thessaloniki (Area 1)
	2	Radiologist, 2 * Gynecologists, Otolaryngologist	Regional Unit of Thessaloniki (Area 1)

	2	Radiologist, 2 * Gynecologists, Otolaryngologist	Regional Unit of Pella (Area 7)
8	1	Radiologist, 2 * Gynecologists, General Doctor	Regional Unit of Florina (Area 8)
	2	Radiologist, 2 * Gynecologists, Otolaryngologist	Regional Unit of Florina (Area 8)
9	1	Radiologist, 2 * Gynecologists, General Doctor	Regional Unit of Kilkis (Area 9)
	2	Radiologist, 2 * Gynecologists, Otolaryngologist	Regional Unit of Kilkis (Area 9)
10	1	Radiologist, 2 * Gynecologists, General Doctor	Regional Unit of Serres (Area 10)
	2	Radiologist, 2 * Gynecologists, Otolaryngologist	Regional Unit of Serres (Area 10)

Planning

- **ATEITH milestones for the 1st year**
- Participation in 1-2 project’s Task Force Meetings at Thessaloniki and possibly in Gevgelja
 - Completion of 2 evaluation forms
 - Opening conference
 - 3-4 seminars “Educational program for general population”
 - 3-4 seminars “Educational program for local doctors”
 - 4-5 seminars “Practical Training on mannequins”
 - Data collection form all the above
 - Preparation of documents needed for the medical services to be provided through the Medical Mobile Unit

Input needed / Dependencies

- Modification of external to staff regarding a medical doctor with special expertise needed
- Actions needed from partners in order to get the Medical Mobile Unit
- Opening conference in Thessaloniki under the auspices of ATEITH - **preferably within November 2018!**

Thank you!

E.4 Presentation of the Ministry of Health of FYROM (PB4), Mr. Mitko Sevrievski

Interreg - IPA CBC
Greece - The former Yugoslav Republic of Macedonia

**Kick-off Meeting, THESSALONIKI
31/10/2018**

Participant Name

Introduction

► **Ministry of Health (MoH)**

-Central role in the health system, through its responsibilities for formulating health policies, exerting influence and collecting and using intelligence for development, implementation and monitoring of health policies and enforcing health legislation.

The MoH roles are:

- establishing overall strategic direction and priorities for the health system;
- developing legislation, regulations, standards, policies, and directives to support those strategic directions;
- monitoring and reporting on the performance of the health system and the health of population;
- planning for and establishing funding models and levels of funding for the health care system; and
- ensuring that ministry and system strategic directions and expectations are fulfilled (especially with the state-budget funded programs, where MoH is directly involved in their implementation)

2

Introduction

► Ministry of Health

The main responsibilities (as per the Law on organization and performance of the state administration bodies) are activities related to:

- Health care and health insurance
- Organization and development of health system
- Monitoring of the health status of population
- Protection of population against communicable diseases, harmful effects of gases, ionizing radiation, noise, air, water, contaminated soil, chemicals, narcotics, hygiene and an epidemic
- Hygiene-epidemiologic condition
- Chemicals and narcotics

In 2015- special body “E-Health Directorate” was established within the MoH. It is responsible for development and improvement of the integrated healthcare information system “Moj Termin”

3

State of the art

► State of the art

- ☐ IPA 2009 project- Strengthening of the blood safety system
- ☐ Health for Growth Programme/HORIZONT 2020
IPH- part of the research team for the project
INHERIT inherit.eu
- ☐ ERASMUS Plus program
- ☐ WESTERN BALKANS INVESTMENT FRAMEWORK (WBIF)
- ☐ INTERREG IPA CBC project HEALTH INFO

08.10.2018

4

Role in “Health Info” Project

► MoH (PB4) contribution in the project

☐ WP1

Activities for regular and continuous implementation of the project-participation at the meetings with other partners (Task Force meetings), organizing 3 Quality evaluation

08.10.2018

5

Role in “Health Info” Project

► MoH (PB4) contribution in the project

☐ WP2

Activities for project promotion: publishing informative brochures prepared by LB, providing promotional materials for PB5 and PB6 Info days and for the Closing conference, sharing information about the project through different media and internet, organizing Closing conference in Gevgelija, translation of Project Communication Strategy and Plan prepared by LB

08.10.2018

6

Role in “Health Info” Project

► MoH (PB4) contribution in the project

☐ WP3

Mapping infrastructure and resources in the cross border region

☐ WP4

Strengthening skills of the existing human resources (educational program for the doctors from Bitola and Gevgelija)

08.10.2018

7

Role in “Health Info” Project

► MoH (PB4) contribution in the project

☐ WP5

Implementation electronic platform created by LB at national level (providing compatibility with the existing national e health system)

Providing external expertise by software company for implementation of the new common E platform (translation, inserting relevant national health data, adjustment/upgrade of the system etc)

08.10.2018

8

Planning

► Our milestones for the 1st year

Expectations:

- WP1- participation at TF meetings
- WP2 Publishing Promotional materials started
- WP3 Mapping on needs(infrastructure and resources) started
- WP4 Educational program for local doctors started

08.10.2018

9

Input needed / Dependencies

► Input needed from other WPs / tasks / Beneficiaries

► Leading Beneficiary

- 4-page brochures will be used in order to inform the general population and especially the project's target groups regarding the project's activities – preparation of the brochures on time due to the need for timely translation, editing, publishing by PB4
- Preparation of the Project Communication Strategy and Plan
- Creation of an electronic platform – need for cooperation in order to provide compatibility with existing national system
- PB5 and PB6- cooperation regarding the organization of Info days and education of doctors that will be engaged in screening process

CLINICAL HOSPITAL "D-r TRIFUN PANOVSKI"
7000 Bitola - REPUBLIC OF MACEDONIA

Introduction

The Clinical Hospital Bitola is built with technical features and capacity to deliver health services to approximately 300,000 patients from the southwestern region of FYROMacedonia. The Clinical Hospital of Bitola is a system that follows patients through a specialist-consultative activity to total prevention, diagnosis, curing, treatment and rehabilitation. Clinical hospital Bitola is the leader in health care system in south-west region of FYROMacedonia on secondary level.

Our hospital consists twenty four medical departments with 520 beds capacity, including unique departments out of Skopje like Oncology and Nuclear medicine. Number of inpatients is approximately 18000 and 320000 outpatients

31.10.2018

2

per year, using medical services from 140 doctors specialists.
Concerning our project we have 8 gynecologists and 8 radiologists,specialists.

Few years ago the Clinical Hospital had received new medical equipment from the Government, worth 5-6 million euros.

- magnetic-resonance imaging;
- 64 slice computer tomography;
- laser device for destruction of kidney stones;
- 4D ultrasound equipment for gynecology and cardiology;
- respiratory, incubators, respiratory machines;

CHB is financed by The National health fund
(approximately 10 000 000 Euros per year),funds by the
private patients and donations.

State of the art

The most relevant experience for our organization is successfully done past project "Childrenhealth" 2012-2013 under the Interreg IPA CBC programming Greece-The FYROMacedonia 2007-2013, which main goals were detection, prevention of Cardiovascular diseases and healthy life in children population between 8 and 12 years with Aristotle University of Thessaloniki as our lead partner.

At this moment, also, we are partner in the COMETECH (Continuity in care of metabolic diseases through yhe modern technology) project under the same programming IPA CBC Greece-The FYROMacedonia 2014-2020.

31.10.2018

5

Role in "Health Info" Project

Our organization will be included in project activities concerning:

- preparation, collection and evaluation of data through the screening of patients target groups for prevention of breast cancer and PAP tests
- educational program for general population
- educational program for local doctors
- purchase of Digital mamograph

31.10.2018

F.1. Opening of the Kick-Off Meeting – Greetings and Welcome speeches from the Project Partners

10:00 – 10:30

The representatives of the partners of the Consortium arrived at the Conference Hall of the Professional Chamber of Thessaloniki, Greece. The participants signed the Participation List (See D. Participation List). Welcome coffee & snacks.

LB: Christina Georgakopoulou welcomed the participants of the KoM on behalf of the National Organization for Health Care Services Provision – EOPYY and gave a brief speech regarding the purpose of the meeting.

Introductions and welcome speech from the LB members and greetings to the participants.

Christina Georgakopoulou introduced the Greek partners, the Alexander Technological Educational Institute of Thessaloniki (ATEITH) - Department Midwifery and the General Hospital Of Pellas - Hospital Unit Of Edessa and the three partners from the former Yugoslav Republic of Macedonia, the Ministry of Health of FYROM and the Public Health Institution General Hospital-Gevgelija and the Public Health Institution Clinical Hospital Bitola.

PB2: Brief introductions and greetings from Dr. Menelaos Zafrakas on behalf of the Alexander Technological Educational Institute of Thessaloniki (ATEITH).

PB3: Welcome and introductions on behalf of the General Hospital Of Pellas - Hospital Unit Of Edessa from Mr. Athanasios Mittakos.

PB4: Welcome and introductions on behalf of the Ministry of Health of FYROM from Mr. Mitko Sevrievski, Mrs. Biljana Taneska and Mrs. Slobodanka Ancevska.

PB5: Welcome speech and introductions on behalf of Public Health Institution General Hospital-Gevgelija from Mr. Risto Gjurov, Mr. Risto Atanasovski and Dr. Mitko Krdjev.

PB6: Welcome speech and introductions on behalf of the Public Health Institution Clinical Hospital Bitola from Mrs. Biljana Hristovska, Dr. Zoran Lazaraov and Dr. Aleksandar Dimovski.

F.2. Presentations of the Project Partners

F.2.1 Introduction to HEALTH-INFO. Presentation of the Lead Beneficiary

10:30 – 10:45

Christina Georgakopoulou, LB's Communication Manager, made a presentation on behalf of the Lead Partner, the National Organization for Health Care Services Provision – EOPYY.

The presentation included an overview of EOPYY and its objectives as well as its participation to other co-financed Projects. The presentation also focused on the Introduction to HEALTH-INFO, an overview of the Work Packages and the deliverables of the project, the involvement of the partners in each WP and deliverable, the procurement plan, the objective and scope of the project, the roles of the partners and the Leader's milestones for the 1st year of implementation as well as the specifics of their implementation.

F.2.2. Presentation of the Project Beneficiary 2

10:45 – 11:05

Dr. Menelaos Zafrakas, PB2's Project Manager, made a presentation on behalf of the Project Beneficiary 2, the Alexander Technological Educational Institute of Thessaloniki (ATEITH) - Department Midwifery.

The presentation included an overview of the ATEITH, its main scope and their main areas of research and education as well as its previous participation to other co-financed Projects. The presentation also focused on the role of ATEITH in HEALTH-INFO, an overview of the Work Packages and the deliverables of ATEITH's participation, the milestones for the 1st year of implementation as well as the specifics of each delivery's implementation.

11:45 – 12:00

Mrs. Biljana Hristovska, PB6's Project Assistant, made a presentation on behalf of the Project Beneficiary 6, the Public Health Institution Clinical Hospital Bitola.

The presentation included an overview of the Public Health Institution Clinical Hospital Bitola, its main scope and its previous participation to other co-financed Projects. The presentation also focused on the role of the hospital in HEALTH-INFO and an overview of the Public Health Institution Clinical Hospital Bitola milestones for the 1st year of implementation.

F.2.7. Presentation of the Project Officer

12:00 – 12:15

Mr. George Papapostolou, HEALTH-INFO's Project Officer, made a presentation on the topic of Pre-financing for IPA Beneficiaries, allocations and expenditures verifications.

F.3. Break-down of the Project Timeline (1st and 2nd year of implementation)

12:45 – 13:45

All partners – with the coordination of the LB – started an overview of the timeline's scope, which was a preliminary draft. The partners went through every WP and delivery of the project and elaborated as well as updated the existing plan. Every partner checked their availabilities and commitments of their project team and defined the schedule of the Timeline. The updated Timeline has been shared with the project partners and can be found below:

F.4. Communication between the Partnership

13:45 – 14:00

All partners – with the coordination of the LB – started an overview of the communication channels the project partners have been using so far. The partners have been communicating only through e-mail so far. During the discussion, it was decided that their official communication will continue to be through e-mails. However, the project partners will add Skype calls to their communication routine.

F.5. Procurements & Risk Management

14:00 – 14:15

CLINICAL HOSPITAL "Dr. TRIFUN PANOVSKI"
BITOLA - REPUBLIC OF MACEDONIA

All partners – with the coordination of the LB – started a discussion regarding the project partner’s progress with procurement procedures. The project partners have included in their presentation the procurements that have been completed so far and the discussion mainly concerned the procedures that are planned (See E. Speakers Presentation). The common decision was to hurry up procedures as much as possible in order to follow the accordingly updated Timeline.

F.6. Closure of the KoM

14:15

All questions were answered during the Presentations of project partners and the project officer as well as during the above discussions. No further questions were documented in this part.
